Conestoga considers ban on all smoking

By Deborah Cranford

Conestoga College trustees may soon be asked to vote on a recommendation by the college's management board to

ban smoking on campus by December 1, 1988.

College President John Whitford said in an interview that the recommendation is for

smoking on Conestoga campuses will be discussed at the December board of governors meeting, but may not be voted upon until February.

I made a commitment to the board (of governors) to come forward with the ban in writing, with a draft policy for a non-smoking policy for the college, Whitford said.

Whitford said he turned the policy over to trustees after initial efforts and early consultation between trustees failed to be completed, such as when the policy would be implemented and if any designated smoking areas should be allowed.

It was only after the trustees met back and said "Yes we should have designated smoking areas and the rest was left to a policy committee to put in proper perspective. I had no more to do. I had to be involved in it. It was left to the committee to say we'll find it," Whitford said.

Whitford added that since they designated areas for smoking, they have a proper smoking area system.

The committee is currently working to make the smoking ban a reality by setting a target date. They have been asked to set a date, and will have to set a date to put the policy into effect. Whitford said he will be the one to make the final decision.

Whitford said other issues have to be addressed, such as how the policy will be implemented, how the policy will be

enforced, who will enforce it, and what penalties will be imposed on violators.

He said a policy outlining the non-smoking policy would be put forward in order to give the college community an idea of the policy.

Whitford said he expects later discussions over the policy because the presence of the smoke and tobacco fumes is a health risk. He said he expects a high percentage of people working in a policy that would control smoking.

I think the university will be a challenge on the issue. It will be designated smoking areas. It will be a challenge on the issue. It will be a challenge on the issue. It will be a challenge on the issue.

important issue to me.

Whitford added that not every day is going to be happy with the policy, but every day is happy with the fact that a policy has to be implemented in the health needs of everyone.

I am not saying it is my own opinion or my own opinion. This is a fact that is in the end. I am not saying it is my own opinion or my own opinion. This is a fact that is in the end.

Whitford said that if he is prepared to accept a recommendation, then it may be a fact that is in the end.

Students voice opinions at DSA meeting

By Cheryl Bryant

Plans to conduct alcohol studies at Tennessee College of Applied Arts through the participation of a special club were rejected at the Doan Student Association's (DSA) 41st annual meeting Monday.

Patricia Belsky, head of the DSA, said that a club would be created to conduct studies at the college's various campus sites. Belsky said that the DSA would possibly support such efforts in the future.

The idea for the planning group and its future discussions with Doan's history professor, Dr. McCarty, Belsky said. The group would be responsible for the DSA and Belsky's study body. The group would also discuss the DSA's future.

During the meeting, the group also discussed the DSA's future. Belsky said that the DSA would possibly support such efforts in the future.

Limo owner talks small business to class

Bobo McNeel, right, opens up his limousine.

By Esther Jansen

It wasn't exactly a diploma, a promotion or even a birth date that set off a chain reaction for Bobo McNeel, a limo owner in Spokane.

It was the owner of the limousine service, who delivered a good lesson to about 40 students in a classroom on what it takes to succeed in today's business world.

Bob McNeel, owner and operator of Bobo's Limousine Service, Inc., of Spokane, was invited to give a speech by Lewis and Clark Community to speak to a small business management class about what it takes to start a small business.

Understand business

McNeel began his presentation by explaining students about getting into a small business and what are some of the challenges when you start a small business. He talked to the students about the importance of a good understanding of how the business works.

Now, if you all want to start your own business, McNeel said, you must know people make a lot of mistakes in their first year of business.

"Be-invest the effort"

One of the mistakes that business make is making the wrong business by trying to "be-invest the effort." Trying to have a small business in something is a "be-invest the effort" McNeel said.

"If you want your business to be successful, you must invest a lot of time and effort," McNeel said.

A successful owner must develop a good plan for his business. For each month, McNeel said, you must have a good plan for your business and a good plan for your business.

McNeel suggested the small business owner should have a good plan for his business. He said that having an investment plan is very important. He said that having an investment plan is very important.

He said that having an investment plan is very important. He said that having an investment plan is very important.
